ON AGING

The Metropolitan Area Agency on Aging (MAAA) serves older adults, persons with disabilities, and those who care for them through an integrated system of information, assistance, education, services and facility-to-home support. As a regional Area Agency on Aging, MAAA delivers Senior LinkAge Line® services in partnership with the Minnesota Board on Aging. www.tcaging.org

Quatrefoil Library fosters GLBT community, culture and camaraderie through literature and media in a welcoming place. By collecting and lending queer creative output we nurture and cultivate the value of the whole community. We continually strive to integrate our historical presence into new areas as communication and technologies evolve. www.qlibrary.org

Aging Out at the Library qlibrary.org/AgingOut.pdf

Aging Out at the Library brings together two leading resources and advocates to serve a community that overlaps both, LGBT older adults. Located at the new Quatrefoil Library site in Minneapolis, this partnership will develop an information and resource hub to serve the com-

munity. Programming includes education on various topics that impact older adults, help navigating a state-wide resource database of services, and health insurance counselors providing one-on-one assistance with navigating Medicare options. tremendously!”*

We are in need of interested community members to support these efforts through volunteering. Good communication and sensitivity to the aging population are what we are looking for in Health Insurance Counselors.

The world of Medicare can be a maze, and many seniors and persons with disabilities are getting lost! Become a Medicare Health Insurance

Counselor and work one-on-one with individuals to help them understand their benefits and options within Medicare.

Volunteers will only be expected to serve at the East Lake Street Quatrefoil Library location and will receive ongoing support from staff and seasoned volunteers. Our goal is to have volunteers trained in and ready to serve beginning in January 2014.
